ABOUT MIDDOUGH INC.

For more than 60 years, Middough has been recognized for its performance and leadership as an international company in engineering, architecture, and management services. Middough provides a full range of traditional and specialized design, technical and management services worldwide.

At Middough, our strength is our people and their commitment to our client's success. We adhere to a set of collective ideals focused on furthering our client's objectives as they relate to overall business strategies and bottom line. We create sophisticated, sustainable services through innovative thinking, exceptional design capabilities and unsurpassed client service in an environment that cultivates professional growth, advancement and financial success for the company and our associates.

When William Vance Middough opened our company in 1950, his vision was based on strong personal values where honesty and trust would be his guide and his word and handshake were as good as gold. Today, these founding values remain true and are the cornerstone of Middough's success.

Middough—Performance You Trust™

LEADERSHIP

Ronald R. Ledin, PE
President and Chief Executive Officer

Leadership and Vision
Ronald R. Ledin, PE, president and chief executive officer, is leading Middough into a new era of cutting edge technology for process engineering and facility design. Through his comprehensive five year strategic plan, Mr. Ledin has positioned Middough as a renowned industry leader for the present and the future. His vision includes expanding Middough's services and locations throughout the nation in direct response to meet and exceed client needs.

About Mr. Ledin
Mr. Ledin earned a bachelor of science in mathematics from John Carroll University and taught for several years while earning a bachelor of mechanical engineering degree from Fenn College of Engineering through Cleveland State University in 1969. While attending Fenn College, Mr. Ledin worked part-time at the engineering and design company located in downtown Cleveland, founded by William Vance Middough, before joining the company full-time in 1967.

Mr. Ledin is a registered professional engineer and has been serving as president and CEO of Middough since 1978 and is an owner of the company since 1974. He has more than 35 years of experience in design and construction with a focus on complex projects for Fortune 500 clients in a variety of industries nationally and internationally.

Mr. Ledin previously held various positions throughout Middough—general manager, project director, project manager, technology manager and engineer for the design of process and utility systems; machinery; heating, ventilating and air-conditioning systems; and material handling systems. During his tenure with Middough, Mr. Ledin has patented several equipment designs.

Mr. Ledin is a past president of the Cleveland Engineering Society (CES) and served on its board for nine years and is the past chairman of Fenn Academy. He is a member of several professional societies including the National Society of Professional Engineers (NSPE), the National Fire Protection Association (NFPA), the National Petrochemical & Refiners Association (NPRA), the Association of Iron and Steel Technology (AIST) and the Project Management Institute (PMI).

He currently serves on the Fenn College of Engineering Visiting Committee and was recognized in 2003 as the Outstanding Engineering Alumnus by the College and in 2004 as a Distinguished Alumni by Cleveland State University. Mr. Ledin is also a recipient of the Project Management Institute, Northeast Ohio Chapter, Kerzner Award for Project Management Excellence in 2004.

"We are reinventing ourselves and will undergo a lot of change. We as a company will embrace this change to serve our clients better."
