Middough Helps Walmart Achieve LEED® Silver Certification

Walmart Supercenter in South Euclid, OH gets Silver rating from USBBC with Middough help.

CLEVELAND, Ohio (May 19, 2014) — Middough Inc., a top ranking U.S. engineering, architecture, and management services company, is pleased to have assisted Walmart in achieving LEED® status at its newly constructed Superstore in South Euclid, OH.

Middough acted as the Owner’s independent auditor assuring that specified sustainable materials were installed and the best practice IAQ measures were followed. In addition, Middough verified owner supplied items delivered and used during construction conformed to project specifications and LEED® requirements. The 180,000 square foot facility designed and constructed in 2013 utilizes cutting edge technology like high-efficiency HVAC equipment, 100% LED lighting, recycled construction materials, low VOC paints and coatings, and incorporates high efficiency design in many of the buildings features.

“This was an exciting project for Middough as we were able to assist Walmart in the construction of a state-of-the-art retail facility that has a low carbon foot print and has minimal impact on our environment”, states Chuck Krzysiak, AIA, NCARB, vice-president at Middough. “Richard Benton, our field manager for the project did an excellent job at verifying, auditing, and completing necessary paperwork for our client to achieve LEED® Silver status,” said Krzysiak.

Middough is proud to be a part of our client’s success and supports several sustainable projects and programs throughout the companies many departments. The company has participated in several projects that have achieved LEED® status.
