Middough Achieves Top 100 U.S. Engineering Firms

Middough ranks 99 on ENR Top 500 Design Firm List for national engineering companies.

CLEVELAND, Ohio (July 8, 2011) — Middough Inc., a top ranking U.S. architectural, engineering and management services company, is pleased to achieve a ranking of 99 in the 2011 ENR (*Engineering News Record*) Top 500 Design Firms nationally for engineering services.

“This is the first time we broke the Top 100 mark and we are very proud of our success,” says President and CEO, Ronald R. Ledin. “I am proud of our company’s dedication to growth in tough economic times. We hope to continue this growth nationally as we expand further into western markets,” says Mr. Ledin.

Middough has several corporate initiatives aimed at growth in target areas, such as construction management and process engineering, which include strategic hiring and resource allocation. The company is organized as four businesses focusing on 16 target markets. “We have seen recent surges with our industrial clients, as well as constant growth in the life sciences business,” states Middough’s president. “Our plans include opening additional offices by the end of the year,” he says.

Middough has consistently made the ENR Top 500 Design Firms list over the past several years. The company ranked #109 in 2010, and #115 in 2009, but most recently achieved a rank of #99 for 2011. This is a corporate milestone for the company. Last year Middough also achieved rankings in the “Giants 300” in *Building Design & Construction* ranked as #23 and in the “Giant 100” in *Consulting-Specifying Engineer* ranked as #35.
