Amherst, NY. 14228

Dear Sir/Madam:

Olin would like to take the opportunity to congratulate our contractor work force who reached the 1000 day anniversary without an OSHA Contractor Recordable Injury on September 11, 2011.

This is an exceptionally significant milestone due to the nature and magnitude of capital projects and maintenance support activities completed at our site with the assistance of contractors.

During the past two and a half years, contractors have worked over 240,000 man-hours at Olin Niagara, providing over \$4,500,000 in contract maintenance services and assisting in the installation of over \$20,000,000 in capital projects.

Olin has a rigorous Contractor Pre-Qualification Process to evaluate contractor safety programs and performance before awarding or allowing work on site. This combined with contractor safety orientations, work permits, safety procedures, safety observations and open safety communication have contributed to a work environment where The Goal of Zero Incidents and Injuries is achievable.

Thank you for your contribution in achieving this milestone of 1000 days without a Contractor Recordable Injury.

We know that without your company's supporting health and safety programs to complement Olin's, combined with the continued focus and safety commitment of your employees working at Olin Niagara, this could not have been achieved.

Sincerely,

A handwritten signature in cursive script that reads "Brian Vain".

Brian Vain
Olin Niagara Plant Manager
