Richard J. Ragan, PE Appointed Senior Vice President and General Manager for Middough Inc.

Company expands its executive team with the addition of recognized industry leader

CLEVELAND, Ohio (Feb. 16, 2010)—Middough Inc., a top ranking U.S. architectural, engineering and management services company, has expanded its executive team with the addition of Richard J. Ragan, PE as senior vice president and general manager, this announcement was made by President and CEO, Ronald R. Ledin.

In this position, Ragan will be directing the daily operations and management of the Technology Group for the company. He will be responsible for architectural, engineering and design personnel in all office locations and will focus his efforts on continuing to improve chargeability, quality compliance and budget performance.

“I’m excited to contribute my insight, experience and leadership in facilitating Middough’s continued growth and the advancement of our strategic plan,” commented Ragan. “I look forward to adding to the company’s continued expansion and development and to the effective management of our businesses in the current challenging economic environment.”

With significant experience in developing and managing architectural and engineering technology operations across a wide spectrum of markets, Ragan brings a history of executive leadership and a proven track record of strategic planning and business performance. Prior to joining Middough, he served as vice president and director of design operations for industrial facilities with MACTEC and has held senior leadership positions with ARCADIS, AVL North America, Sverdrup Technology and the American Bridge Division of US Steel Corp.

“I’ve been fortunate to work alongside some of the most visionary and tenured professionals in the industry,” explained Ragan. “What influenced my decision about joining the Middough team was noticing just how many talented professionals across a variety of practices were already working for the company. I look forward to working with them and together, shaping our future and establishing Middough as a nationally recognized brand.”

Ragan is a graduate of the University of Pittsburgh with a degree in civil engineering and received his masters from the University of Tennessee with a degree in engineering management. He is a member of the Society of Automotive Engineers, American Society of Civil Engineers and Engineering Society of Detroit.
