Middough Hires Senior Technical Manager

New technical manager to support company's Indiana office

CLEVELAND, Ohio (January 16, 2019) — Middough Inc., a top-ranking U.S. capital project solutions company, is pleased to announce that Christopher P. Colella, has joined the company as senior technology manager for their Portage, IN office. Chris will focus his efforts on expanding Middough's service for the refining, metals and power industries in the Central Region and participate significantly in helping to grow Middough's Power industry sector company-wide.

"Chris is a results-oriented manager and will be instrumental in providing leadership and direction for Middough's continue recognition as a high value, professional engineering services provider," said Vice President and General Manager, Mark Jindra.

Background on Chris Colella

Before joining Middough, Chris worked as a generation engineering manager focused on employee safety, asset development and management, design standards, and owned the design basis process. Chris excels at uncovering customers needs, finding solutions and handling objectives. He is a top performer with a proven and consistent track record of meeting and exceeding goals. Chris received his bachelor's degree in mechanical engineering and a master's degree in mechanical engineering technology from Purdue University Calumet.
